SOLVAY CAMPUS RECRUITMENT

CONNECTING EMPLOYERS & TALENTS

Solvay Brussels School
Economics & Management

Solvay Brussels School (SBS - EM)

The SBS-EM was founded in 1903 by Ernest Solvay, a humanist and industrial leader to bridge the gap between business and technology. Since then, it's been training men and women with management skills, **decision making** and **analytical thinking**.

It is part of the faculty of Université libre de Bruxelles (ULB), which plays a major role in economic, social, and cultural development in Belgium.

The SBS-EM is a demanding institution, where students must **work hard** and strive for **excellence**. It provides robust education, carries out advanced research and benefits from deep ties with the Belgian economy.

The school offers education services from bachelor degrees to high-level executive education and PhD programmes.

Solvay Campus Recruitment Programme

The Solvay Campus Recruitment is our school's programme facilitating Employers' talent acquisition.

It enables quality employers to connect with our students (Bachelor & Master) through online as well as offline recruitment activities.

This programme is powered hand in hand with the Solvay Brussels School as well as the Bureau Étudiant Solvay and the Cercle Solvay.

What we do ?

Online Career Opportunities

- **Career Portal Solvay Career Center by JobTeaser**
- **Career Emailing**

Our Flagship Events

Solvay Career Days 23-24 February 2021

Our main event. We gather half a hundred the Belgium's top companies and close to a thousand students over a two-day long, good old job-fair taking place at the heart of our campus.

Fair for Impact 18 March 2021

Our rising star. NGOs, public and non-profit organisations are invited to come over to share their insights and meet with Solvay's greatest minds during this toned-down fair.

Our Students

Bachelor Programmes

- Bachelor in Business Engineering
- Bachelor in Economics

Master Programmes

The **Master in Business Engineering** prepares students for leadership positions in private and public organisations. Students are equipped with the skills necessary to be actively involved in all areas of organisation management and both quantitative and qualitative data analysis.

The **Master in Business Economics** trains students to become leading economists, businessmen or managers in both the private or public sector. This technical and labour intensive programme emphasises the ability to analyse governmental policies and to think out of the box.

The **Master in Economic Analysis & European Policy** has a strong European flavour which manifests itself in specialised courses or in the careful consideration, in other courses, of the specifics of the European dimension.

The **Master in Management Science** gives students a solid background in all major fields of Management including Financial, Marketing, Human Resource, Operations Management, Service Management.

The **Master in Research in Economics** provides students with the theoretical and statistical tools to pursue advanced analysis and research in economics.
